

Ghasri, GOZO

Tucked between the hills of iz-Zebbug and Gammar, Ghasri is a small village on the western side of the Island of Gozo. Dominated by the Ta' Gurdan lighthouse, this picturesque village is surrounded by some of the most spectacular country and far-reaching sea and valley views, making it highly sought after by locals and expats alike. We are proud to present this lavish Villa/Farmhouse which is nestled amongst the working farming community, and with its elevated position, commands outstanding views of the lush countryside and the beautiful valley beyond. This property is nonetheless located in close proximity to the ferry making it easy to cross over to the main island of Malta, and within easy access to the beach and just 500m from all amenities. This fully detached Villa has been renovated to exacting standards whilst still retaining the charm and character of a traditional Gozitan home. Accessible through a little private lane, a large carport leads up to the property where you find a bright hallway leading to a lavish lounge which in turn opens up to one of the numerous terraces, some of which are covered. A separate dining room enjoys the same terrace together with a fully equipped kitchen. Further complimenting this level is a bedroom and a shower room. On the first level are three spacious bedrooms, all having their own fireplace and bathroom en-suite, one of which has a whirlpool bathtub. Two of the bedrooms lead out onto a fabulous sea-facing terrace with sunbeds and enjoy unparalleled views all around. Last but certainly not least, an absolutely stunning 160sqm private swimming pool is surrounded by an equally amazing deck and garden with a barbeque area and wonderful spaces ideal for entertaining, and which can only be seen to be appreciated. This spectacular residence is unrivaled in its genre and is testimony to some of the most panoramic views you could feast your eyes upon.
